PROJECTS

BookStore <https://frontend-ten-kappa-52l8qf8r3e.vercel.app/>

Technologies: Html5, Css3, JavaScript

- The website acts as a marketplace specially for books, allowing users to :
- Buy books by browsing or searching desired titles.
- Sell their used or old books by posting ads with descriptions and prices.
- Connect directly through contact option to finalize transactions.
- Enjoy features like responsive design, book categorization.

Note Taking App <https://notes-taking-simple.vercel.app/>

This project helps users organize daily tasks by allowing them to:

- Add new tasks to the list.
- Delete tasks when they're done.
- Search tasks using keywords.
- Experience a clean, responsive design suitable for mobile and desktop.

CERTIFICATIONS / ACHIEVEMENTS

- Participated in DLLE Program Pune Vidhyarthi Griha's College of Science and Technology Mumbai- 2025
- Java Programming Certification
Anudip Foundation | 2025
